Sara, this is a copy of the presentation that the WG will make on the 13th. There are some inaccuracies that we are trying to correct and there is a list of questions at the end that we are trying to answer. One question is about why was this not made a CERCLA site. Could you help me with a few sentence in what the process is for EPA to designate a Superfund site?

Subject: FW: DTSC Presentation

Good morning,

Scott Andrews sent the Work Group's draft presentation for the Oct 13th meeting over the weekend. I've asked him for links to the videos that he references below. Please see his note below as well re the videos, and circulate the presentation to other team members as needed. Per the established protocol for Work Group presentations, the purpose of the Work Group providing their draft presentation in advance of the Oct 13th meeting is to give DTSC time to prepare responses. I'll be out for most of today for Rosh Shannah, but will check emails late this afternoon.

Also, please make sure that I receive a copy of any response that gets sent to Rich re his question about the process for adding the two new members.

Thank you,
Joan

Subject: DTSC Presentation

Joan,

This is the draft of the email I could not send. Attached is a PDF of the presentation. This is only about 5 megs. The one I sent last night was almost 19.

SA

Joan,

The presentation including the videos is about 487 megabytes. I tried to put it on my google drive so that I could send you a link to copy it from, but it is taking way too long (system says it will take an hour and a half). I have taken out the seven to none slides with videos and am sending you the file without them. We still want to reserve the right to show them. They are the same one we played at the IRP meeting and DSTC has seen them. It looks like a lot of slides, but many of them are just slides to back up what the timeline says. Please don't call me before noon tomorrow.

Regards,

Scott
